Rent-A-Vacation Brand Concepts & Creative Assets

> **Purpose:** Named features, campaign concepts, taglines, elevator pitches, and reusable copy blocks for all marketing outputs **Version:** 1.0 | February 21, 2026 **Usage:** Pull from this document for slide decks, social media, email campaigns, landing pages, PR pitches, and sales conversations **Honesty Rule:** Every claim is labeled [BUILT], [INDUSTRY DATA], or [PROJECTED]. Never present projections as actuals.

I. THE RAVIO BRAND

Origin

RAVIO = **R**ent-**A**-**V**acation **I**ntelligent **O**perator

RAVIO is the named AI personality behind all AI-powered features on the platform. It's not a chatbot — it's a concierge. It doesn't search — it understands. It doesn't filter — it finds.

RAVIO Character Brief

Attribute	Value
Name	RAVIO
Role	AI Vacation Concierge
Personality	Knowledgeable, warm, efficient, slightly enthusiastic
Voice	Conversational, clear, helpful — like a well-traveled friend
Capabilities	Voice search, text chat, property recommendations, resort knowledge
Limitations	Honest about what it doesn't know. Never fabricates.
Tagline	"Just Say Where."

RAVIO in Marketing

"Ask RAVIO" — The voice search experience

- Usage: "Ask RAVIO to find your next vacation"

- Context: The primary AI interaction — voice-first, natural language
- Demo: Say "Find me a beachfront 2-bedroom in Maui under $2,000"
- Status: [BUILT]

"Chat with RAVIO" — The text search experience

- Usage: "Chat with RAVIO — type your dream vacation"
- Context: For users who prefer text, are in noisy environments, or have accessibility needs
- Demo: Type "I'm looking for a Disney resort with 3 bedrooms for a family reunion"
- Status: [BUILT]

RAVIO Copy Blocks (Ready to Use)

Short (Social/Ad):

> "Meet RAVIO. Say where you want to go. Get results before you finish your sentence."

Medium (Landing Page):

> "RAVIO is your AI vacation concierge — the first of its kind in travel. Just say where you want to go, when, and what you want to spend. RAVIO understands natural language, knows 117 resorts by name, and finds your perfect match in seconds. No filters. No forms. Just conversation."

Long (Feature Page):

> "Planning a vacation shouldn't feel like work. That's why we built RAVIO — the world's first AI-powered vacation concierge. RAVIO listens to what you actually want, not what a dropdown menu thinks you mean. Say 'Find me a beachfront 2-bedroom in Maui for under $2,000 in March' and watch RAVIO search 117 resorts and hundreds of listings to find your perfect match — with voice narration to walk you through the results. Prefer typing? Chat with RAVIO does the same thing, with streaming AI responses and clickable property cards. Either way, RAVIO is always free and always ready."

II. NAMED PRODUCT FEATURES

1. Wishes

What It Is: Renters post a Wish — destination, dates, budget. Owners send Offers. Renter picks the winner.

> **Rebrand note (Session 52):** "Vacation Wishes" → "RAV Wishes" → **Wishes**. The current canonical noun is "Wish" / "Wishes" — no RAV prefix. Hashtag is `#PostAWish`.

Marketing Names:

Option	Vibe	Best For
Wish / Wishes	Plain, evocative	Primary noun everywhere
Post a Wish	Action-oriented	CTA buttons, landing pages
Your Trip, Their Offer	Marketplace framing	Investor audiences

Recommended: "Wish / Wishes" (noun) + "Post a Wish" (CTA)

Copy Blocks:

Headline:

> "Post a Wish. Owners Make It Happen."

Short:

> "Tell us your dream trip. Verified owners send you their best Offers. You pick the winner."

Medium:

> "Wishes flip the script on travel booking. Instead of you hunting for the right Listing, you tell us what you want — destination, dates, budget, requirements — and verified vacation club owners send you Offers. You review the Offers, pick the best one, and book. It's the travel experience you've always wished for."

CTA Options:

- "Post a Wish"
- "Tell Us Your Dream Trip"
- "Let Owners Send You Offers"

---

2. The Marketplace (slogan: "Name Your Price")

What It Is: Two-sided negotiation surface — make an Offer on any Listing, or post a Wish and let owners send you Offers.

> **Rebrand note (Session 52):** "Bidding" → **Marketplace** in nav and route. The slogan "Name Your Price. Book Your Paradise." remains the brand tagline; it describes the *mechanic* (you name a price via an Offer).

Copy Blocks:

Headline:

> "The Price Tag Just Got a Negotiation Button."

Short:

> "See a Listing you like? Make an Offer. The owner can accept, counter, or decline. Real negotiation, real savings."

Medium:

> "On every other vacation platform, you see a price and take it or leave it. On Rent-A-Vacation, you name your price. Browse open Listings, send your Offer, and negotiate directly with verified owners. Accept, counter, or walk away — you're in control. It's how vacation rentals should have always worked."

CTA Options:

- "Open the Marketplace"
- "Make an Offer"
- "Browse Listings"

---

3. RAV SmartPrice

What It Is: AI-powered pricing recommendation engine that tells owners what to charge.

Copy Blocks:

Headline:

> "Don't Guess Your Price. Know It."

Short:

> "SmartPrice analyzes comparable listings and tells you exactly what your week is worth. Price right. Book faster."

Medium:

> "Pricing a vacation rental shouldn't be guesswork. RAV SmartPrice compares your property to similar listings — same resort, same unit type, same season — and recommends an optimal price. Every listing gets a Fair Value badge: 'Fair Value,' 'Underpriced,' or 'Overpriced.' Owners who price at fair value book faster. Travelers who see fair value badges book with confidence."

---

4. RAV SmartEarn

What It Is: Free public tool that shows owners how many weeks to rent to cover maintenance fees AND projects annual rental income by brand, unit type, region, and occupancy. Merges the former "Fee Freedom Calculator" and "Rental Yield Estimator" into one comprehensive earnings tool.

Copy Blocks:

Headline:

> "Will Renting Your Timeshare Cover Your Maintenance Fees — and How Much Could You Earn?"

Subhead:

> "Find out in 30 seconds — free, no account needed."

Short:

> "Enter your brand, unit type, and annual fee. We show you the break-even math and your earnings potential instantly."

Medium:

> "You're paying maintenance fees every year for weeks you don't use. RAV SmartEarn shows you exactly how many weeks you need to list on Rent-A-Vacation to cover those fees — and projects how much you could earn beyond break-even. It's free, it takes 30 seconds, and you don't need an account. Over [X] owners have already calculated their path to Fee Freedom."

CTA Options:

- "Calculate Your Fee Freedom"
- "See Your Break-Even & Earnings"
- "How Much Could You Earn?"
- "Try SmartEarn — Free"

---

5. TrustShield

What It Is: Multi-step owner verification program.

Copy Blocks:

Headline:

> "Every Owner Verified. Every Stay Protected."

Short:

> "TrustShield verifies owner identity and property ownership before any listing goes live."

Medium:

> "Renting from a stranger shouldn't feel risky. TrustShield is our multi-step verification program that confirms every owner's identity and property ownership before their listing goes live. Trust levels progress from New to Verified to Trusted as owners build their track record. You see the badge. You know it's real."

---

6. PaySafe

What It Is: Escrow payment protection system.

Copy Blocks:

Headline:

> "Your Money Is Protected Until You Walk Through the Door."

Short:

> "Pay securely. Funds are held in escrow until you check in and confirm your stay."

Medium:

> "PaySafe holds your payment in escrow from the moment you book until you physically check in and confirm everything is as described. If something goes wrong, we make it right. Owners get paid after confirmed check-in — not before. It's trust, built into the transaction."

---

7. ResortIQ

What It Is: Curated resort directory that auto-populates listing details for owners and provides consistent resort information for travelers.

Copy Blocks:

Headline:

> "117 Resorts. 351 Unit Types. Listed in Minutes."

Short:

> "Every listing is backed by ResortIQ — curated resort data that auto-fills the details so owners list in minutes."

Medium:

> "Behind every listing on Rent-A-Vacation is ResortIQ — our curated directory of 117 resorts and 351 unit types from Hilton, Marriott, Disney, Wyndham, Bluegreen, and more. When an owner creates a listing, ResortIQ auto-populates bedrooms, bathrooms, square footage, amenities, and policies. When a traveler views a listing, they see consistent, accurate resort information. This isn't user-generated guesswork — it's structured data curated from official resort sources."

---

8. RAV Edge

What It Is: The complete owner tools suite — dashboard, earnings, analytics, pricing.

> **Rebrand note (Session 47):** Formerly "Owner's Edge." Renamed to "RAV Edge" for brand family consistency alongside RAV Command.

Copy Blocks:

Headline:

> "Your Timeshare. Your Business. Your Dashboard."

Short:

> "Manage everything in one place — listings, bookings, earnings, bids, and verification."

Medium:

> "RAV Edge is your command center on Rent-A-Vacation. Track your earnings — lifetime, year-to-date, and monthly. Manage active listings and bookings. See incoming bids in real-time. Monitor your maintenance fee coverage percentage. Upload verification documents. Everything an owner needs, in one dashboard."

---

9. RAV Command

What It Is: Executive-grade business intelligence dashboard.

Copy Blocks:

Headline:

> "Boardroom-Grade Intelligence for Marketplace Leadership."

Short:

> "6 sections. Proprietary metrics. Live industry feed. The view from the top."

For Investors:

> "RAV Command is where business meets data. Track GMV, revenue, and booking trends with Recharts-powered visualizations. Monitor marketplace health with our platform-specific Liquidity Score and Bid Spread Index. Get live industry news, regulatory radar, and macro economic indicators. Connect third-party data sources like AirDNA and STR with our Bring-Your-Own-Key integration. This is the dashboard that turns a marketplace into a business."

---

10. RAV Deals

What It Is: A curated page surfacing distressed/expiring inventory where owners are highly motivated to accept offers. Feeds directly into the Name Your Price bidding engine.

> **Added:** Session 47, April 12, 2026

Copy Blocks:

Headline:

> "Expiring Weeks. Motivated Owners. Your Best Price."

Short:

> "Browse RAV Deals — Listings with check-in dates approaching fast. Owners are ready to negotiate. Name your price."

Medium:

> "RAV Deals surfaces vacation weeks that are approaching their check-in date with few or no Offers. These owners are motivated — they'd rather earn something than let the week go unused. Browse the deals, Make an Offer, and book a luxury stay at your price. Every deal is backed by TrustShield verification and PaySafe escrow protection."

CTA Options:

- "Browse RAV Deals"
- "See Today's RAV Deals"
- "Deals Expiring Soon — Name Your Price"

III. ELEVATOR PITCHES (By Audience)

For a Traveler (15 seconds)

> "Rent-A-Vacation lets you stay at Hilton, Marriott, and Disney resorts at owner prices — saving 20-40% compared to booking direct. Make an Offer on any Listing, post a Wish and let owners send you Offers, or search by voice with RAVIO. Every owner is verified, every payment is protected."

For a Timeshare Owner (15 seconds)

> "You're paying maintenance fees on weeks you don't use. Rent-A-Vacation lets you list those weeks in minutes, our AI tells you what to charge, and travelers bid on your property. You approve guests, set prices, and earn income that offsets your fees."

For an Investor (30 seconds)

> "Rent-A-Vacation is the first marketplace purpose-built for the $10.5 billion vacation ownership industry. We've built a two-sided Marketplace where renters make Offers on Listings AND owners send Offers on renter Wishes — a true negotiation surface in both directions — plus a 117-resort data layer and AI-powered voice and text search, all fully deployed and tested. The platform is pre-launch, disciplined, and ready to scale. We charge a 15% default commission on successful bookings only — no upfront fees to list — with tier-based discounts for subscribed owners. Projected 85%+ contribution margins."

For a Journalist (30 seconds)

> "There are 10 million American families paying over a thousand dollars a year in timeshare maintenance fees for weeks they never use — and travelers paying inflated prices for those same rooms through other platforms. We built the first Marketplace to connect them directly. Renters can Make an Offer on any Listing or post a Wish for owners to send Offers against — true two-sided negotiation in vacation rentals. We also offer AI-powered voice and text search through our concierge, RAVIO. The platform is fully built, pre-launch, and demonstrable today."

For a Vacation Club Brand Executive (30 seconds)

> "Your owners are your most valuable long-term asset — and they're frustrated. Maintenance fees are rising, usage is declining, and exit companies are circling. Rent-A-Vacation gives your owners a trusted, verified platform to monetize unused weeks — reducing their financial burden and your churn risk. We've already built profiles for [62/40/15] of your resorts. Let's discuss a pilot program."

IV. TAGLINE COLLECTION

Primary Taglines

#	Tagline	Best For
1	**Name Your Price. Book Your Paradise.**	Master tagline — everything
2	**Just Say Where. RAVIO Does the Rest.**	AI/voice campaigns
3	**Luxury Resorts. Owner Prices.**	Traveler acquisition

#BookYourParadise	General brand
#DirectFromOwners	Trust / value proposition
#RAVSmartPrice	Owner pricing tool
#TrustShield	Verification stories
#RentAVacation	Brand tag

V. SOCIAL MEDIA HOOKS

For Instagram / TikTok (Short-Form)

Hook 1 — The Shock Price:

> "This is a 2-bedroom suite at a Hilton resort in Orlando. The resort charges $3,200. The owner listed it for $1,100. No catch. Just owner pricing."

Hook 2 — The Voice Demo:

> "I just said 'Find me a beachfront resort in Maui under $2,000' to my phone... and this happened." [screen recording of RAVIO]

Hook 3 — The Fee Freedom Reveal:

> "I pay $1,800/year in timeshare maintenance fees. Here's how I'm going to cover ALL of them." [calculator demo]

Hook 4 — The Wish:

> "I wished for a 2-bedroom in Orlando for spring break under $1,500. Three owners responded in 24 hours. Here's what they offered." [PROJECTED — future content]

Hook 5 — The Bidding Story:

> "The listing was $2,400. I offered $1,800. The owner countered at $2,000. I accepted. That's Name Your Price."

Hook 6 — The AI Reaction:

> "I told RAVIO I wanted a Disney resort for a family of 6 and she found one in 4 seconds. I'm

> never going back to filter menus."

For LinkedIn / Twitter (Professional)

Hook 1 — The Market Thesis:

> "9.9 million U.S. families own timeshares. Over half want out. The secondary rental market is fragmented, low-trust, and has no technology leader. We built one. [Link to site]"

Hook 2 — The Tech Angle:

> "We shipped 18 product phases in 18 months. 182 automated tests. Zero type errors. The first voice-powered vacation search in the industry. Here's what we learned about building fast without breaking things."

Hook 3 — The Owner Story:

> "A timeshare owner paying $1,800/year in maintenance fees just needs to rent 2-3 weeks to break even. We built the platform to make that trivially easy."

Hook 4 — The AI-First Angle:

> "The future of travel search isn't a better filter menu. It's a conversation. 'Find me a beachfront 2-bedroom in Maui under $2,000.' That's it. That's the search."

VI. EMAIL SUBJECT LINES

Traveler Campaigns

#	Subject Line	Open Rate Prediction
1	"What would you pay for a week in paradise?"	High — curiosity + aspiration
2	"You can now bid on vacation rentals"	High — novelty
3	"Meet RAVIO, your AI vacation concierge"	Medium-High — tech curiosity
4	"Luxury resorts at 20-40% off (here's how)"	High — savings hook
5	"Your dream vacation, at your price"	Medium — aspirational
6	"Just say where. RAVIO finds the rest."	Medium — AI hook

Owner Campaigns

#	Subject Line	Open Rate Prediction
1	"Your maintenance fees could pay for themselves"	High — pain point
2	"How many weeks to Fee Freedom? (Free calculator)"	High — tool + curiosity
3	"Stop paying. Start earning from your timeshare."	High — action + relief
4	"List your week in 8 minutes. Here's how."	Medium-High — speed promise
5	"What's your timeshare week actually worth?"	High — curiosity
6	"SmartPrice knows what your week is worth"	Medium — tech feature

---

VII. PRINT / PHYSICAL ASSETS (One-Pagers)

One-Pager: For Travelers

```
RENT-A-VACATION
Luxury Resorts. Owner Prices.

    What is it?
A marketplace where you rent vacation club properties
directly from verified owners — at 20-40% less than
resort-direct prices.

    How it works
1. BID or WISH — Name your price or let owners compete
2. SEARCH — Browse listings, or ask RAVIO by voice or text
3. BOOK with CONFIDENCE — PaySafe escrow protects every dollar

    Why it's different
✓ Make an Offer on any Listing
✓ Post a Wish — owners send you Offers
✓ AI voice search with RAVIO
✓ 117 resorts, 351 unit types
✓ Every owner verified via TrustShield
✓ Every payment held in PaySafe escrow

rent-a-vacation.com | #NameYourPrice
Name Your Price. Book Your Paradise.
```

One-Pager: For Owners

```
RENT-A-VACATION
Your Timeshare. Your Income. Your Terms.

    The problem
You pay $1,000-$3,000/year in maintenance fees
```

```
for weeks you don't use.

    The solution
List those weeks on Rent-A-Vacation.
Our AI tells you what to charge.
Travelers bid on your property.
You approve guests and earn income.

    How it works
1. LIST — ResortIQ auto-fills your property details
2. PRICE — SmartPrice recommends optimal pricing
3. EARN — PaySafe handles payments securely

    The numbers
✓ Listing is FREE — no monthly fees
✓ 15% default commission on successful bookings only (Pro -2%, Business -5%)
✓ RAV SmartEarn shows your break-even and earnings potential
✓ TrustShield builds your reputation
✓ RAV Edge dashboard tracks everything

rent-a-vacation.com | #FeeFreedom
Stop Paying. Start Earning.
```

VIII. NAMING CONVENTIONS & USAGE RULES

Always Capitalize

- Rent-A-Vacation (always hyphenated, title case)
- RAVIO (all caps when standalone; "Ask RAVIO" / "Chat with RAVIO" in feature context)
- Ask RAVIO, Chat with RAVIO
- Marketplace (the umbrella product noun; route is `/marketplace`)
- Listing, Wish, Offer (the three marketplace nouns — Session 52 lock)
- RAV Deals
- My Rentals (formerly Owner's Edge → RAV Edge)
- RAV Insights (formerly RAV Command)
- RAV Ops (formerly Admin Dashboard)
- Name Your Price (brand slogan / hero tagline only — not a nav label)
- RAV SmartPrice, RAV SmartEarn, RAV SmartCompare, RAV SmartMatch, RAV SmartBudget
- TrustShield
- PaySafe
- ResortIQ
- Liquidity Score, Bid Spread Index (executive analytics — internal)

Never

- "Rent a Vacation" (missing hyphens)
- "Ravio" (lowercase — always RAVIO)
- "Vacation Wishes" / "RAV Wishes" / "RAV Wish" (retired Session 52 — use Wish / Wishes)
- "Owner's Edge" / "RAV Edge" (retired — use My Rentals)
- "RAV Command" (retired — use RAV Insights)
- "Admin Dashboard" (retired — use RAV Ops)
- "Make a RAV Offer" (retired Session 52 — use Make an Offer)
- "Make a RAV Wish" / "Make a Wish" (retired Session 52 — use Post a Wish)
- "Bid" / "Proposal" as user-facing UI noun (retired Session 52 — use Offer; "Bid" + "Proposal" stay only in DB column names)
- "Name Your Price" / "Make a Wish" as separate nav links (retired Session 52 — single Marketplace link)
- "/bidding" (legacy route — redirects to /marketplace)
- "Smart Price" / "Smart Earn" / "Smart Compare" / "Smart Match" / "Smart Budget" (two words — always one compound word after Smart)
- "Trust Shield" (two words — always TrustShield)
- "Pay Safe" (two words — always PaySafe)
- "RAV deal" / "Rav Deals" (always RAV Deals — RAV is all caps)

Abbreviation

- **RAV** — acceptable in informal contexts, internal docs, and UI where space is limited
- **R-A-V** — never use dashes in abbreviation

IX. CAMPAIGN CALENDAR (SUGGESTED — Q2-Q4 2026)

Month	Campaign	Primary Channel	Goal
Apr	"RAV SmartEarn" launch	SEO blog + social	Owner leads
May	"Name Your Price" explainer series	Social carousel + PR	Brand awareness — lead with marketplace
Jun	Beta launch announcement	Email + community	Beta signups
Jul	"Post a Wish" campaign	Social + email	Traveler acquisition
Aug	"Ask RAVIO" launch video	Social video + PR	Feature education — AI as supporting differentiator
Sep	Public launch	PR + paid social + search	Mass acquisition

Oct	"Trust Stories" (TrustShield focus)	Testimonial video	Trust building
Nov	Holiday travel deals	Email + social	Seasonal conversion
Dec	Year in review + mobile app tease	Email + blog	Retention + hype

---

This document is the creative foundation for all Rent-A-Vacation marketing. Pull copy blocks directly. Adapt taglines for context. Always maintain the BUILT / INDUSTRY DATA / PROJECTED distinction in any public-facing material.
